Thursday, August 19, 2010

Instructor:

Location: ECAR

3 CE Credits

Time: Noon-3:00pm

Cost: \$15 or Ed Pass,

[\\$20 nonmembers](#)

In virtually every business endeavor, risk is a byproduct of existence. In the real estate profession, risk exists on several fronts. You don't even have to have a transaction in order to create risk. This webinar will speak to and help you avoid the most common risks associated with the ownership of a Brokerage firm and the practice of Real Estate. If you're responsible for the operation of your Brokerage firm, a good starting point in risk management is the creation of a Policy manual. In this webinar you learn to identify the issues of greatest liability, segregate areas of risk between a salesperson and a Brokerage firm, list the content of a good policy manual, and much more!
